

Competing Risks and Multi-State Models – Karolinska Institute

May 5-8, 2026

Instructors: Ronald Geskus (day 1 and 2) and Hein Putter (day 3 and 4)

Day 1 – Tuesday, May 5, 2026

9:15-10:30	Main Concepts and Quantities (including exercises)
10:30-10:45	Coffee/tea break
10:45-12:30	Main Concepts and Quantities (including exercises)
12:00-12:30	Introduction to Computer Practicals
12:30-13:30	Lunch break
13:30-15:00	Estimation: Multi-State Approach
15:00-15:15	Coffee/tea break
15:15-16:45	Exercises and Computer Practicals

Day 2 – Wednesday, May 6, 2026

9:15-10:45	Estimation: Subdistribution Approach
10:45-11:00	Coffee/tea break
11:00-12:30	Computer Practical
12:30-13:30	Lunch break
13:30-15:00	Combined Analysis; Types of Study Questions and Interpretation
15:00-15:15	Coffee/tea break
15:15-16:45	Exercises and Computer Practicals

Day 3 – Thursday, May 7, 2026

9:15-10:45	Multi-state models 1: terminology and non-parametric estimation
10:45-11:00	Coffee/tea break
11:00-12:30	Computer Practical
12:30-13:30	Lunch break
13:30-15:00	Multi-state models 2: incorporating covariates
15:00-15:15	Coffee/tea break
15:15-16:45	Computer Practical

Day 4 – Friday, May 8, 2026

9:15-10:45	Multi-state models 3: dynamic prediction
10:45-11:00	Coffee/tea break
11:00-12:30	Computer Practical
12:30-13:30	Lunch break
13:30-15:00	Multi-state models 4: Markov issues
15:00-15:15	Coffee/tea break
15:15-16:45	Computer Practical
